

## The Road to the Moon.

In the velvet sky, so vast and so wide,  
A path unfolds, with the stars as our guide.  
A road to the moon, where dreams are in flight,  
A perfect shot through the whispering night.

With a heart full of hope, and eyes set on space,  
We embark on a voyage, to that silvery place.  
The engines ignite, with a thunderous roar,  
Leaving trails of fire, to the lunar shore.

Through the cosmos we sail, on a silken beam,  
Past the planets that watch, like a silent dream.  
The Earth fades away, a blue marble in sight,  
As we journey onwards, in the absence of light.

The moon beckons us closer, with its cratered face,  
A celestial dance, in the starry embrace.  
We touch down gently, in the dust of time,  
A perfect shot, in a ballet so sublime.

In the quietude of the moon, where history's made,  
We stand in awe, of the road we've paraded.  
A perfect shot, from the Earth to the sky,

On the road to the moon, where our aspirations lie.</code></pre>
