In love and despair.

We found ourselves in each others breath
I shared my heartbeats with you

Breathe in
Breathe out

I was yours from the moment I saw you.
You've got me wrapped around your little finger
My heart on a string

You and me, we are the same
We are the weakest when we are not alongside
Together we are the strongest.

Together we share
Our love and despair

I'll love you forever
You are my one true love
Without you I'd feel
Nothing but despair.

When you whisper those words in my ear
While I'm in your warm embrace
And pretending that I'm asleep..
Those are my favorite moments
I wont let anyone take that away from me.

I love you more than anything.

And they lived happily ever after

In love and despair.
