### **The bad things about love**

Love is like a drug  
first you search for it  
then you find it

You get dependent on it  
you just want more

Love make you blind  
you can't see  
you are in a pink world  
everything is beautiful  
and lovely  
nothing can be wrong

Love is like a poison  
it can make you sick  
if you don't start to see  
the bad things  
that might be there

Behind the pink clouds  
Behind the charming words,  
that make you feel special  
Behind the deep, green eyes  
that make you dream about the future  
Behind the red lips  
that kiss you with a passion,  
you never felt before  
Behind the hands that are warm  
and that take your hands  
and make them warm  
when your cold  
Behind the words that says;  
"you're beautiful"  
"I can't live without you"  
"You're the most special person to me"

Behind the word that everyone wants to hear  
"I love you"

Look behind that pink clouds  
and all the beautiful things  
before you give your life  
to that person

Trust your heart but also listen to your brain
