Those days

I remember those days

Those days we were together

Every night, every day

When you were holding me in your arms

Your love was everything I had

I gave you my heart

I gave you my soul

You were my dream, my everything

Lonely days are passing by

All I want is you

I want you to come back

Why did you leave me?

What did I do wrong?

I miss your kiss

I miss your touch

Wish that I can turn back time

I never wanted it to end

I'm sorry if I caused you pain

All I want to say is that I still love you

I will never be the same again
