Into space...

I want to fall of the edge of the world

I'd like to fall of the edge of the world,
sail beyond the stars, gazing,
gazing beyond the world, refrazing
the words of gods...

I'd like to fall of the edge of the world,
sail beyond the moon, smiling,
smiling to his words, hailing
my departure, his return...

I'd like to fall of the edge of the world,
pass the stars, through eternity,
through eternity, in-to infinity
and beyond, yes beyond...

...hope I ain't wrong...
