

Publicerad 2007-01-28 19:22 av Dollarilli

There is a war between us

there is a war between us

I wanna give you something

there is a force that drives us

there is a war between us

I wanna build you something

there is a force that binds us

and you know how it feels

so you learn to forget

and you learn at the end

that it's best to pretend

is this the end?
