Jätte gammal text (2003 nångång)

How you feel

I cant tell how I feel

Why cant you let it be

Feelin so cold to me

Told you I dont want to

You make me realize the truth

Why did you lie to me

That Im the only one for you

So tired, cant fall asleep

messing with my heartbeat

I dont want to see you now

before I know how you really feel

I wanna make it sure

that youre the only one for me

But how will I ever know

If you keep it on the low
